SUMMARY

Hi, I'm Jordan and I am a developer based in Toronto. Coming from a background in retail management, I understand the dynamics of a team based workplace where we work to achieve a common overall goal. I am a team oriented, self-driven manager with over 5 years of experience. I believe my solid foundation in multi-tasking, time management, and communication skills can be transferred into any industry.

EDUCATION

Juno College , Toronto, ON, Canada <i>Web Developer Full Time Immersive Boot Camp</i> <i>Javascript Course - Accelerated</i> <i>Intro to Web Dev</i>	2020 - 2021
George Brown College , Toronto, ON, Canada <i>Culinary Skills Chef Training</i>	2012 - 2013

SKILLS

• HTML	• React	• Rest API	• Problem Solver
• CSS	• Firebase	• Terminal	• Adaptable
• Javascript	• SASS	• Team Management	• Cooking

PROJECTS

Random Plants with Big Names

HTML, CSS, Javascript, SASS

A project that was used to understand useState and useEffect alongside fetching the API to choose and display certain and random characters. Functionally working, design is a work in progress
